

1. Website goals (for your team)

Primary goal

- Position **YDEN – Young Dairy Entrepreneurs Network** as the **home of youth in the dairy value chain in Rwanda** and a serious partner for government, donors, and private sector.

Secondary goals

- Recruit young people into the network (members + cohorts).
 - Showcase programs, partners, and impact (stories & numbers).
 - Provide a clear entry point for **partners / sponsors**.
 - Act as a hub for **learning resources** (toolkits, trainings, events).
-

2. Sitemap (structure for developers)

1. **Home** (/)
2. **About YDEN** (/about)
3. **Programs** (/programs)
4. **For Youth** – Join YDEN (/youth)
5. **For Partners** – Work With Us (/partners)
6. **Resources & Stories** (/resources)
7. **News & Events** (/news)
8. **Contact** (/contact)

4.1 HOME PAGE (/)

Hero section

- **Headline:**
Building the next generation of dairy entrepreneurs in Rwanda
- **Subheadline:**
YDEN connects young people to skills, technology, finance, and markets across the dairy value chain – from farm to cold chain to processing to table.
- **Primary CTA button:**
Join YDEN
- **Secondary CTA button:**
Partner With Us
- **Hero side text / bullets:**
 - For youth aged 18–35
 - Focus on dairy production, aggregation & processing
 - Linked to Gemura, MoHarvest & value-chain partners

Section: Who we are

Title: Who is YDEN?

Body copy (short paragraph):

Young Dairy Entrepreneurs Network (YDEN) is a youth-led initiative that equips young people in Rwanda to build profitable, climate-smart businesses in the dairy sector. Built around **Gemura milk collection**, **Kivu Cold post-harvest solutions**, and the **HarvestPlus philosophy**, we help youth create real jobs and real income along the entire dairy value chain.

Section: Our focus areas (3–4 cards)

Title: What we focus on

Cards (icons above, short text below):

1. **Skills & Training**
Practical training in dairy husbandry, youngstock management, fodder and feeding, milk handling, and agribusiness.
2. **Technology & Innovation**
Access to tools such as milk testing devices, cold chain solutions, digital recordkeeping, and precision dairy technologies.
3. **Markets & Opportunities**
Linkages to Gemura for milk aggregation, logistics, and value-added processing.
4. **Finance & Investment** (optional)
Blended financing models, asset financing and revenue-based financing through partners to help youth start and grow.

Section: YDEN in numbers (impact)

Title: YDEN in numbers

Placeholder metrics (you can adjust later):

- **120+** youth trained in dairy entrepreneurship
- **5** pilot districts engaged
- **3** core value-chain partners (Gemura, Kivu Cold Group, others)
- **20+** youth-led dairy ventures supported

Section: How it works (3-step process for youth)

Title: How YDEN works for youth

1. Learn

Join a YDEN bootcamp or training cohort to build technical and business skills.

2. Launch

Get matched with opportunities—calf rearing, feed production, milk aggregation, cold chain services, and more.

3. Grow

Access mentorship, markets, and financing to scale your dairy enterprise.

CTA: Apply to Join YDEN

Section: Featured story

Title: From youth to dairy entrepreneur

Short sample story (replace with real later):

At 24, Aline from Kayonza started with 2 calves and basic training from YDEN. After joining our youngstock program and supplying milk through Gemura's collection centre, she now manages a small herd, employs 2 other youth, and has consistent income every month.

Button: Read more success stories

Section: Call to action for partners

Title: Partner with YDEN

Paragraph:

We partner with cooperatives, processors, financial institutions, technology providers, and development partners who share our vision of a strong, youth-driven dairy sector. Through structured programs, we help you recruit, train, and support youth enterprises that plug directly into your value chain.

4.2 ABOUT PAGE (/about)

Hero

Headline:

About Young Dairy Entrepreneurs Network

Subheadline:

YDEN exists to make dairy entrepreneurship a viable and attractive path for young people in Rwanda.

Section: Our mission

Title: Our mission

Text:

To build a new generation of skilled, profitable, and climate-smart dairy entrepreneurs who power Rwanda's dairy industry through innovation, technology, and strong market linkages.

Section: Our vision

Title: Our vision

Text:

A vibrant dairy economy where young people lead in production, aggregation, processing, and innovation – creating jobs, raising incomes, and improving nutrition across Rwanda.

Section: Our story

Short narrative:

YDEN was born out of practical work in Rwanda's dairy value chain. Through Gemura's milk collection centers and MoHarvest's post-harvest and cold chain solutions, we saw a clear gap: **young people** were present on farms but rarely leading viable dairy businesses. We created YDEN to bridge that gap – combining technical training, entrepreneurship, and concrete market linkages into a single, youth-focused network.

Section: Our model (diagram-ready)

Title: Our model: From skills to market

Explain in bullets (developers can turn into an infographic):

1. **Identify youth** in rural and peri-urban areas interested in dairy.
 2. **Train** them in technical dairy skills and business fundamentals.
 3. **Equip** them with tools, technologies, and advisory support.
 4. **Connect** them to Gemura, MoHarvest, cooperatives, processors, and off-takers.
 5. **Support** through mentorship, peer networks, and financing pathways.
-

Section: Core partners

Title: Built on strong partnerships

List (placeholders you can tune):

- **Gemura Milk Collection** – quality milk aggregation and farmer linkages.
 - **MoHarvest** – cold chain and post-harvest infrastructure for dairy and other value chains.
 - **(Add others)** – RAB, district governments, financial partners, technology providers, and development partners.
-

4.3 PROGRAMS PAGE (/programs)

Hero:

Headline:

Programs that turn youth into dairy entrepreneurs

Program 1: Dairy Skills Bootcamp

- **Audience:** Youth 18–35, interested in dairy production.
 - **Duration:** 2–4 weeks intensive + ongoing mentorship.
 - **Content highlights:**
 - Dairy husbandry, youngstock management
 - Feeding & ration formulation using local resources
 - Milk hygiene and quality
 - Recordkeeping & basic farm economics
 - **Outcome:** Participants graduate with a farm-based action plan and access to YDEN opportunities.
-

Program 2: Youngstock & Heifer Enterprise Track

- **Focus:** Raising calves and heifers as a business.
 - **What youth do:**
 - Manage calves and heifers for farmers or as co-owners
 - Focus on growth, health, and fertility
 - Earn income through service fees or shared value at sale.
-

Program 3: Youth Milk Aggregators & Cold Chain Agents

- **Focus:** Post-farmgate operations.
- **What youth do:**

- Collect and transport milk from smallholders to Gemura/MoHarvest hubs
 - Use quality control tools (testing, chilling)
 - Learn logistics, negotiation, and data reporting.
-

Program 4: Feed & Fodder Entrepreneurs

- **Focus:** Pasture, fodder, and feed businesses.
 - **What youth do:**
 - Grow and conserve fodder (hay, silage, fodder crops)
 - Supply feeds to local dairy farmers
 - Explore innovations like hydroponic fodder and forage mixes.
-

Program 5 (optional): Digital Dairy & Data Agents

- Youth gather and manage data (milk records, herd health, input usage).
- Use digital tools and apps to support farmers, processors, and investors.

CTA at bottom of page:

- **See how to join these programs → (link to For Youth page)**
 - **Download program brochure (PDF)**
-

4.4 FOR YOUTH PAGE (/youth)

Hero:

Headline:

Are you ready to build your dairy business?

**Subheadline:**

YDEN helps you start and grow as a young dairy entrepreneur – even if you don't own cows yet.

Section: Who can join?

Bullets:

- Age 18–35
 - Living in Rwanda
 - Interested in dairy production, aggregation, processing, logistics, feed, or digital services
 - Willing to commit time and effort to training and implementation
-

Section: What you get

- Training and coaching in technical and business skills
 - Access to practical opportunities (calves, aggregation routes, feed contracts, etc.)
 - Linkages to buyers and off-takers
 - Mentorship from experienced farmers and agribusiness experts
 - Inclusion in a national youth network
-

Section: How to apply

Step-by-step:

1. Fill in the online application form.
2. Shortlisting & interviews for each cohort.
3. Successful applicants join a bootcamp or program track.

4. After training, youth are matched with real opportunities.

Primary CTA button:

Apply to Join YDEN

(Beneath, brief note: *If you have limited internet access, contact us through your local partner hub or cooperative.*)

4.5 FOR PARTNERS PAGE (/partners)

Hero:

Headline:

Work with YDEN to power your dairy value chain

Subheadline:

We co-design youth pipelines that serve your business, cooperative, or development program.

Section: Who we partner with

- Dairy processors & off-takers
 - Cooperatives & farmer organizations
 - Financial institutions & impact investors
 - Development agencies and NGOs
 - Technology providers in dairy and agriculture
-

Section: Partnership models

Examples:

1. **Youth Supply Chains**

Build youth-led raw milk collection networks that supply your plant or hub.

2. **Embedded Training Programs**

Co-brand training content aligned with your quality and sourcing needs.

3. **Co-financed Youth Ventures**

Support youth-owned dairy and feed businesses with blended finance and risk sharing.

4. **Pilot & Innovation Projects**

Test new technologies (sensors, apps, cold chain solutions) with youth as frontline adopters.

CTA:

- **Book a partnership call**
 - **Download partnership brief (PDF)**
-

4.6 RESOURCES & STORIES PAGE (/resources)

Tabs or sections:

1. **Toolkits & Guides**

- “Starting a small dairy enterprise”
- “Basics of milk hygiene”
- “Introduction to fodder and silage”
- (PDFs or blog-style pages)

2. **Success Stories**

- Individual youth case studies
- Before/after snapshots

3. **Downloads**

- Program brochures

- Application forms
 - Partner briefs
-

4.7 NEWS & EVENTS PAGE (/news)

- Blog-style listing of:
 - Cohort announcements
 - Training schedules
 - Field days
 - New partnerships
 - Each item links to its own detail page.
-

4.8 CONTACT PAGE (/contact)
